

(Priority 1)_MVP_Donation Wish List

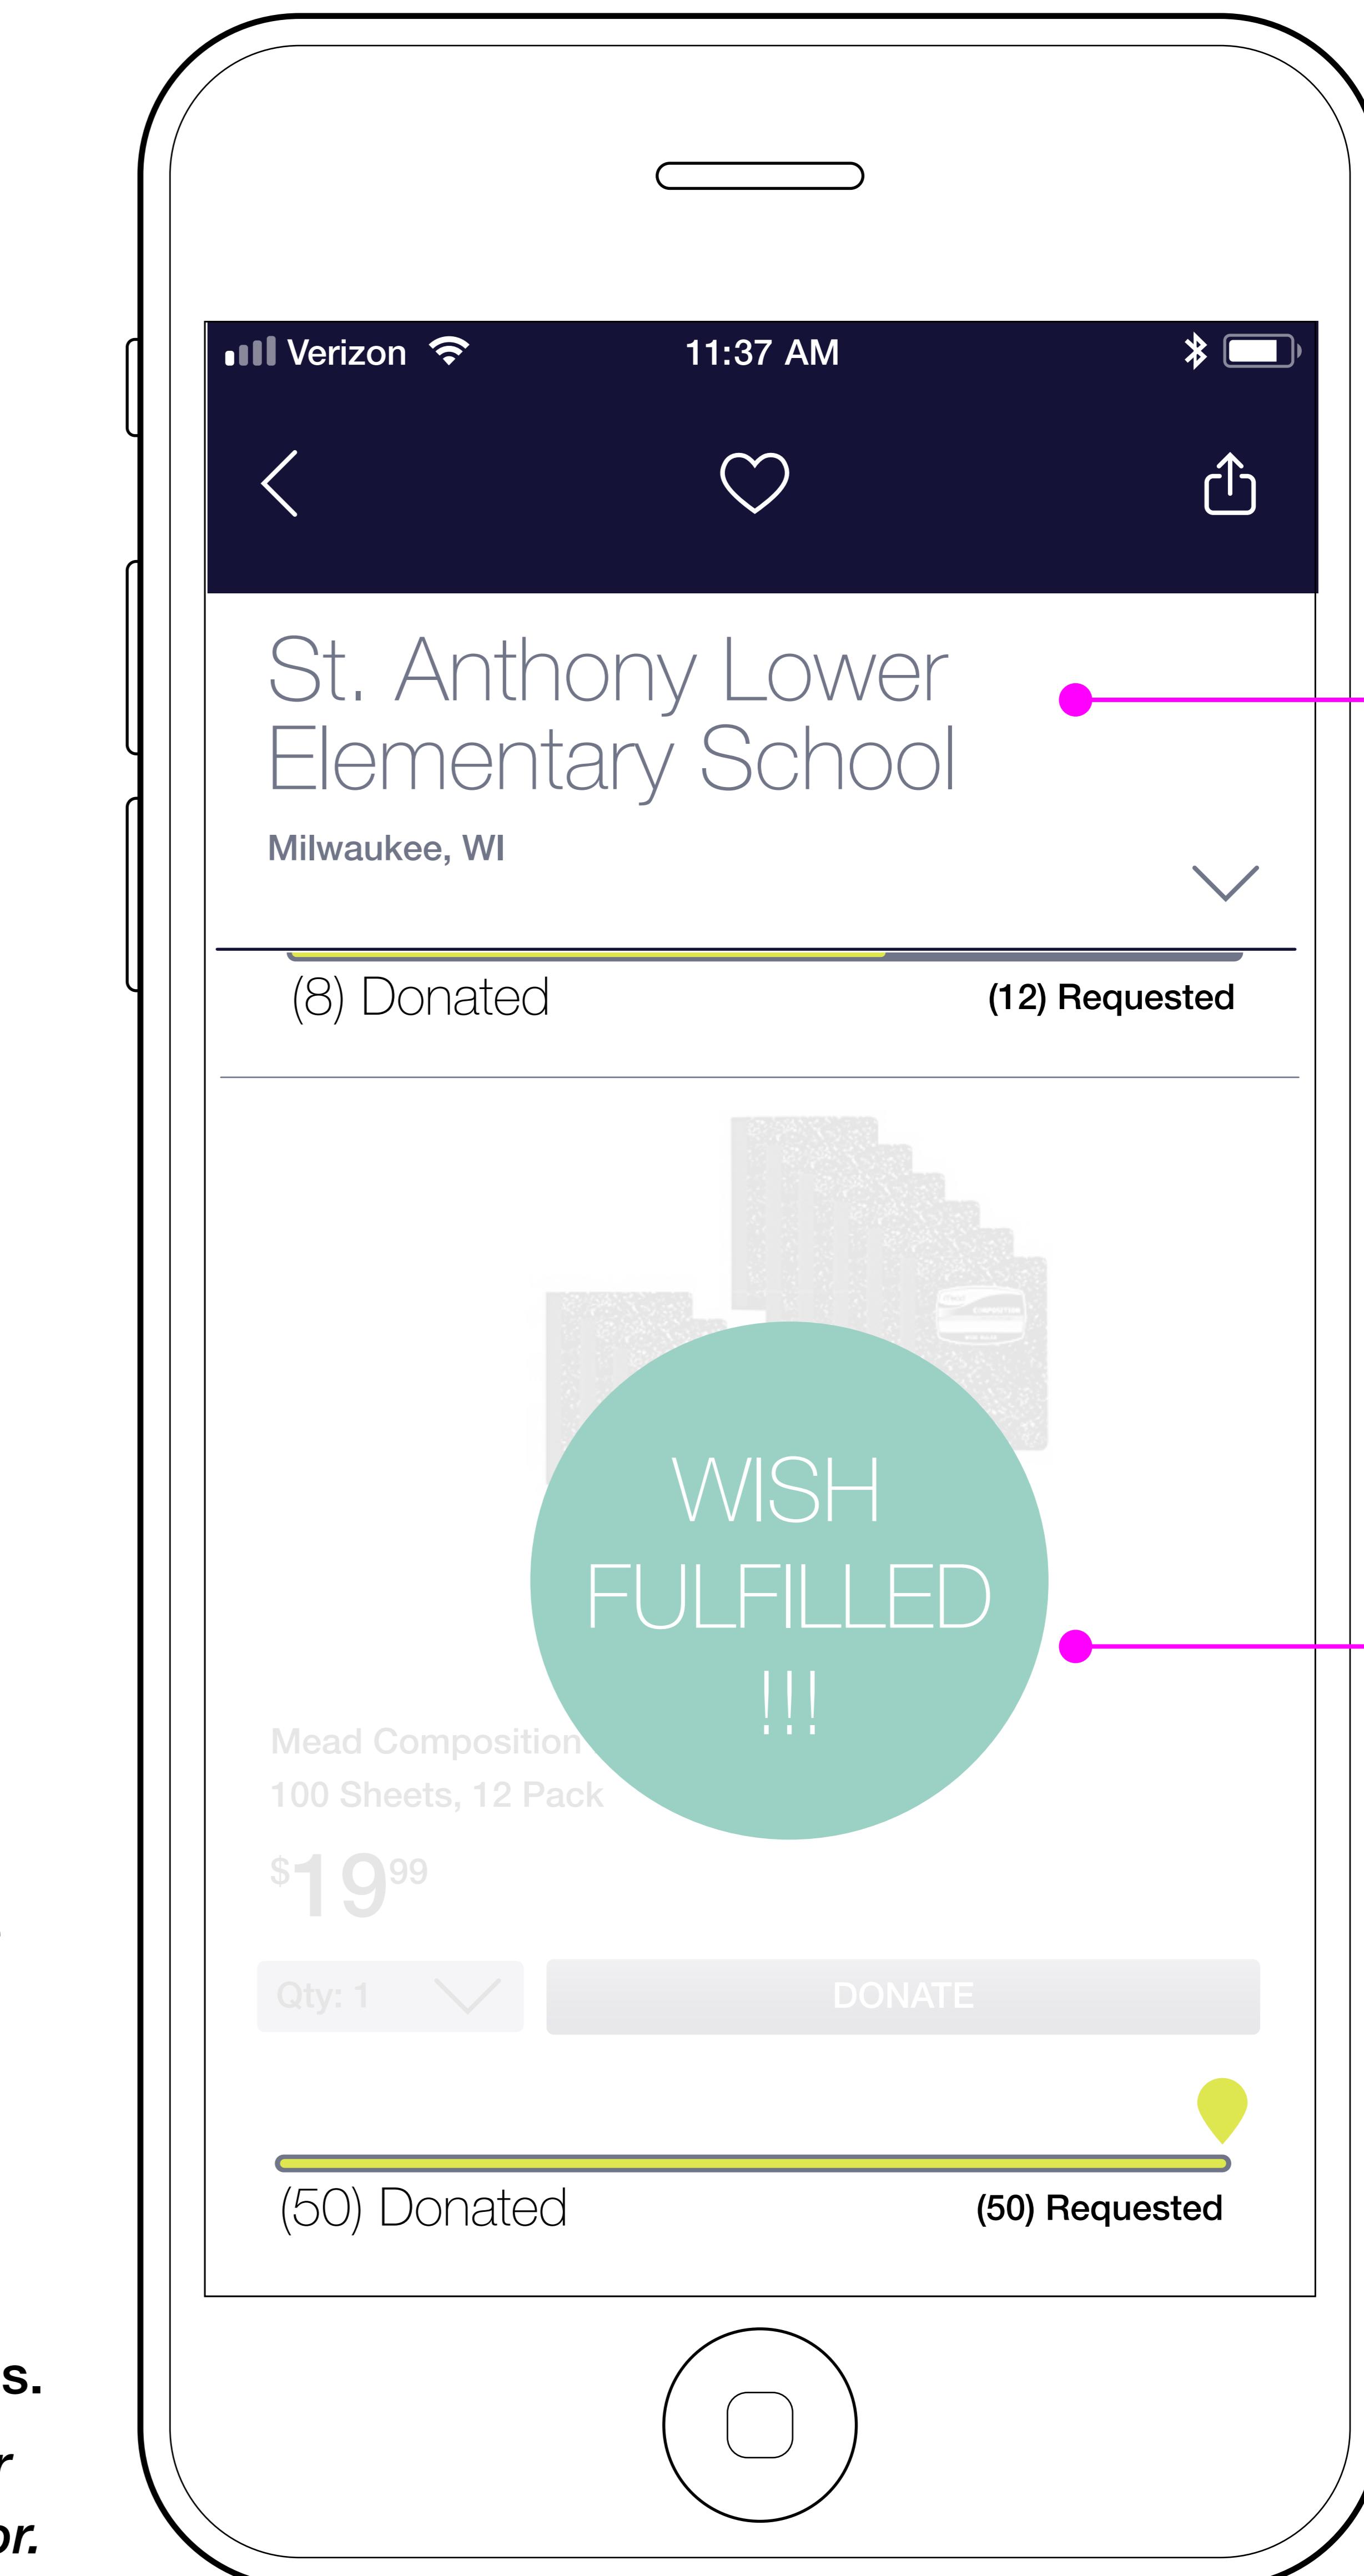

Scroll down to see Donation Wish List

- Banner functions that may be added later:
 - Back to higher level
 - Ability to "Favorite" (outline switches to filled when activated)
 - Share function

Qty drop down, acts like pop-up. Reference Amazon

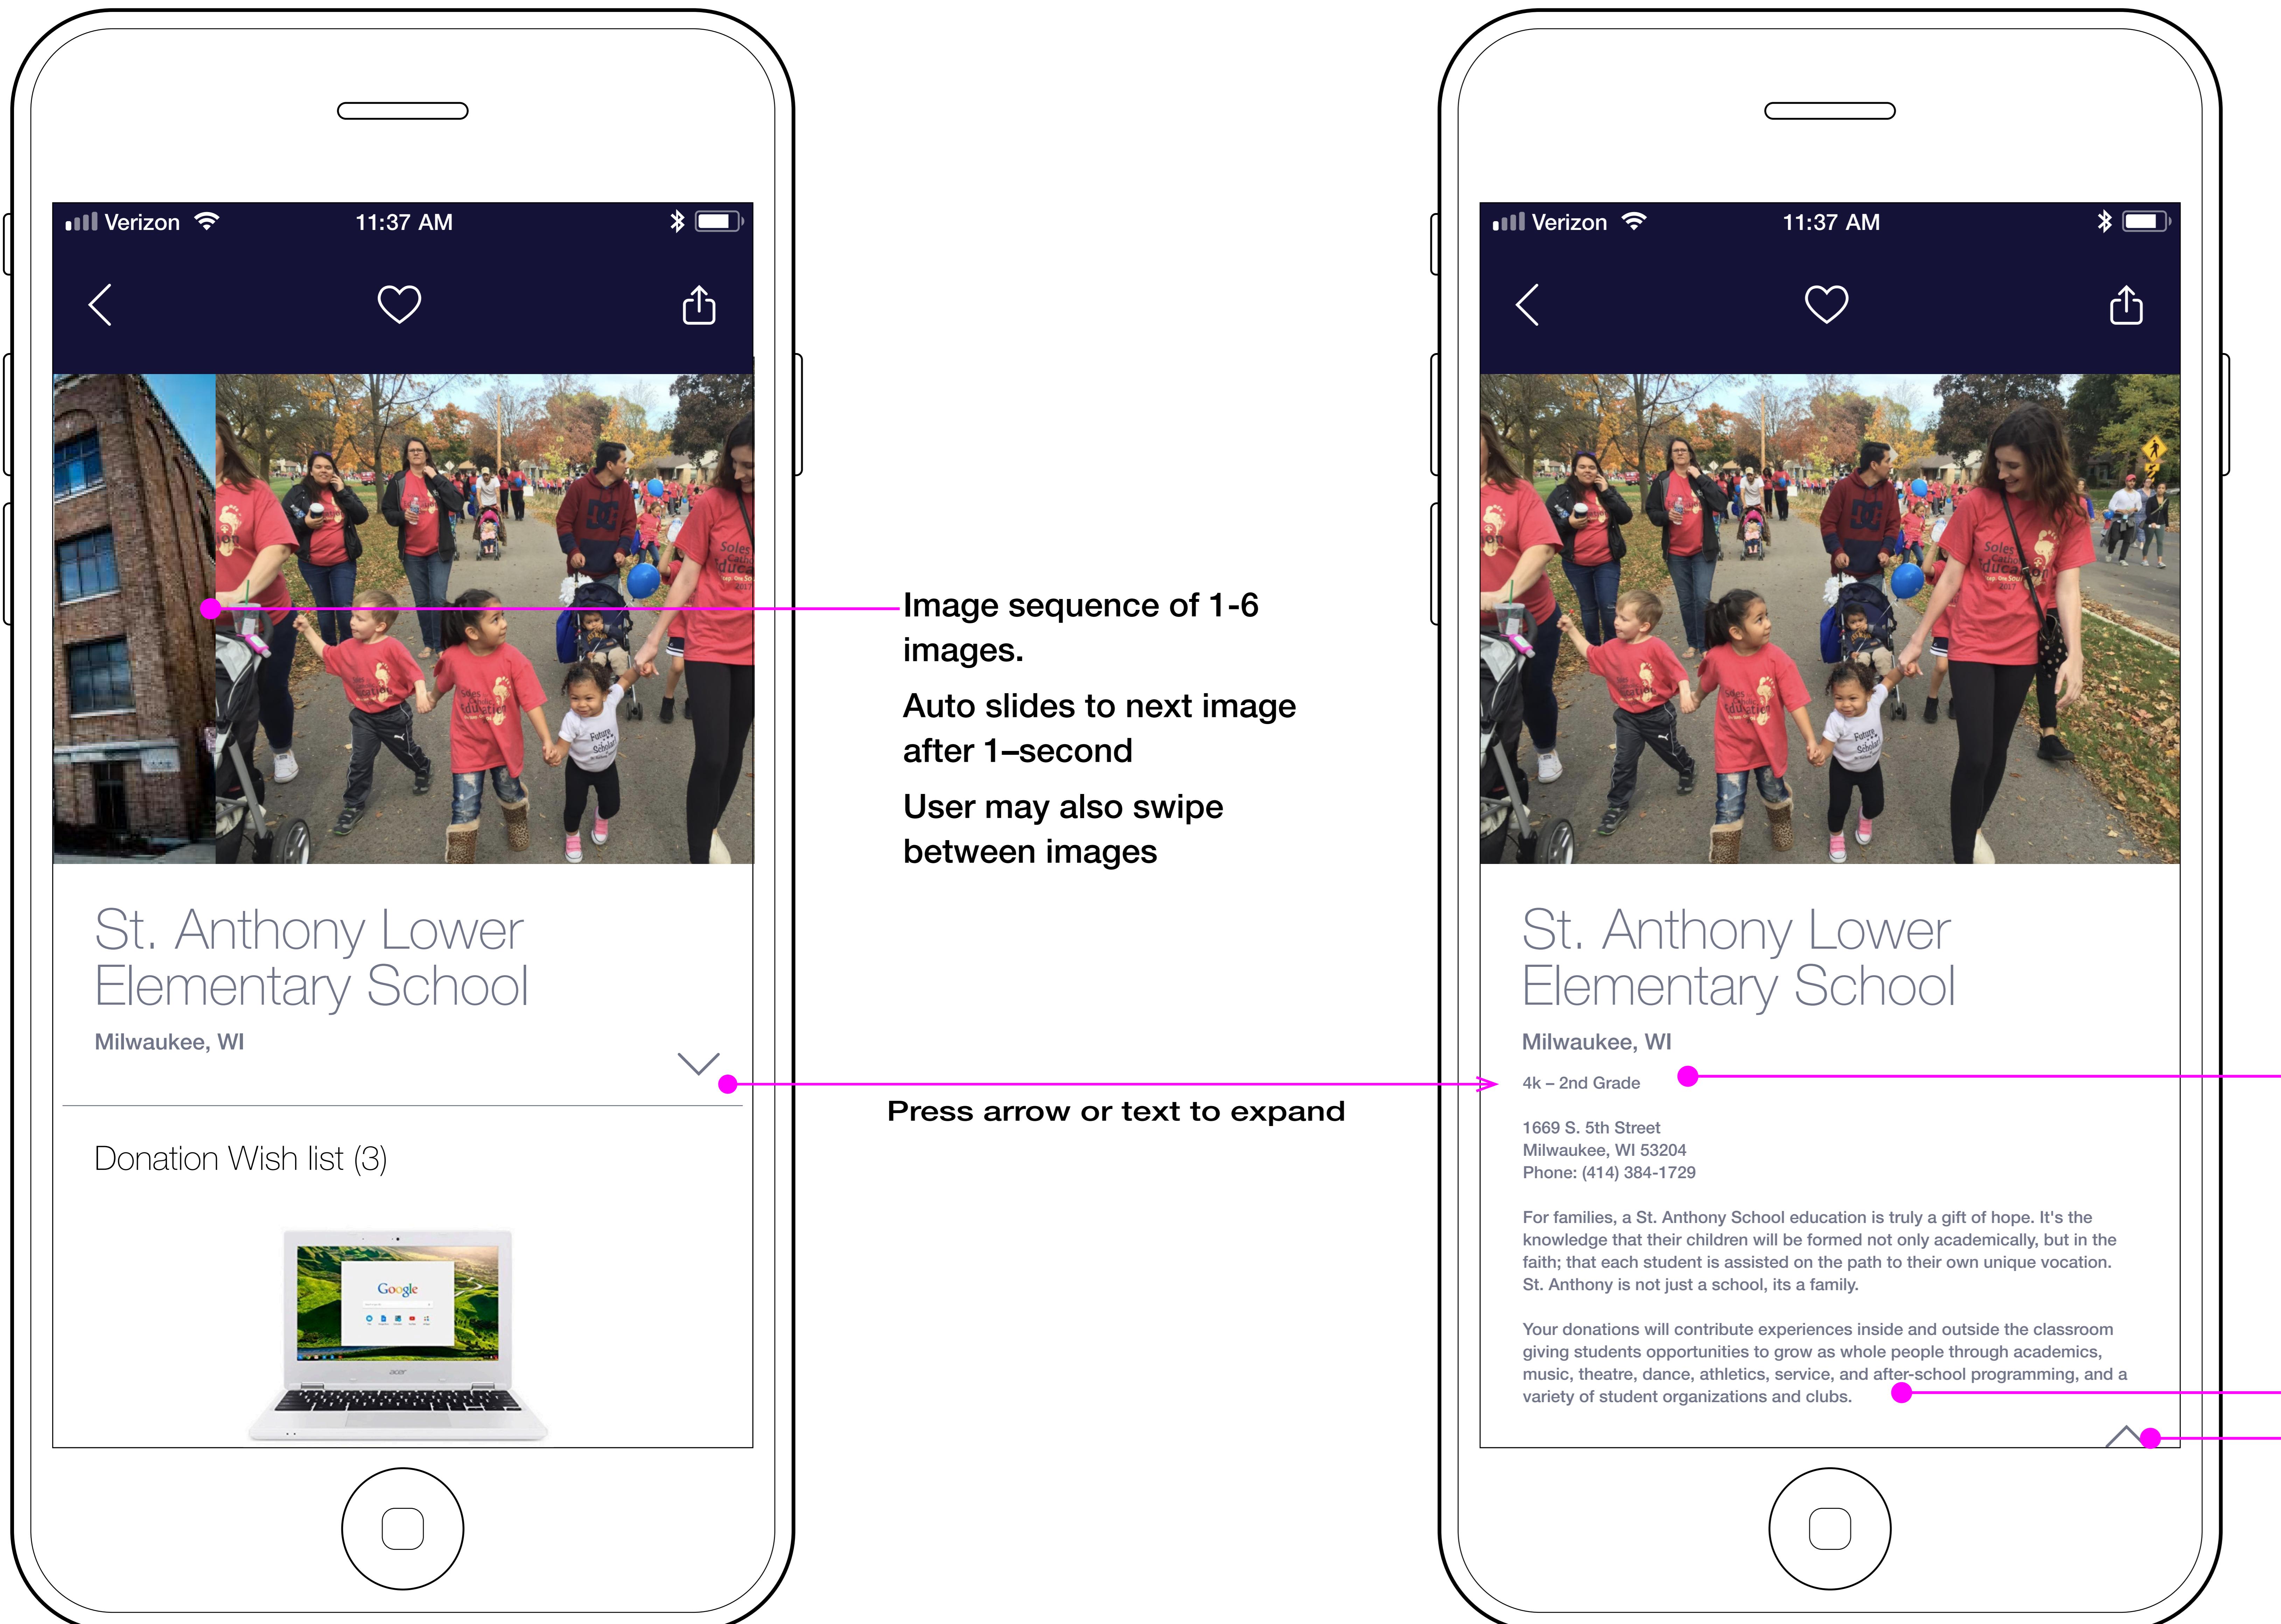

Title attaches to header when user scrolls down

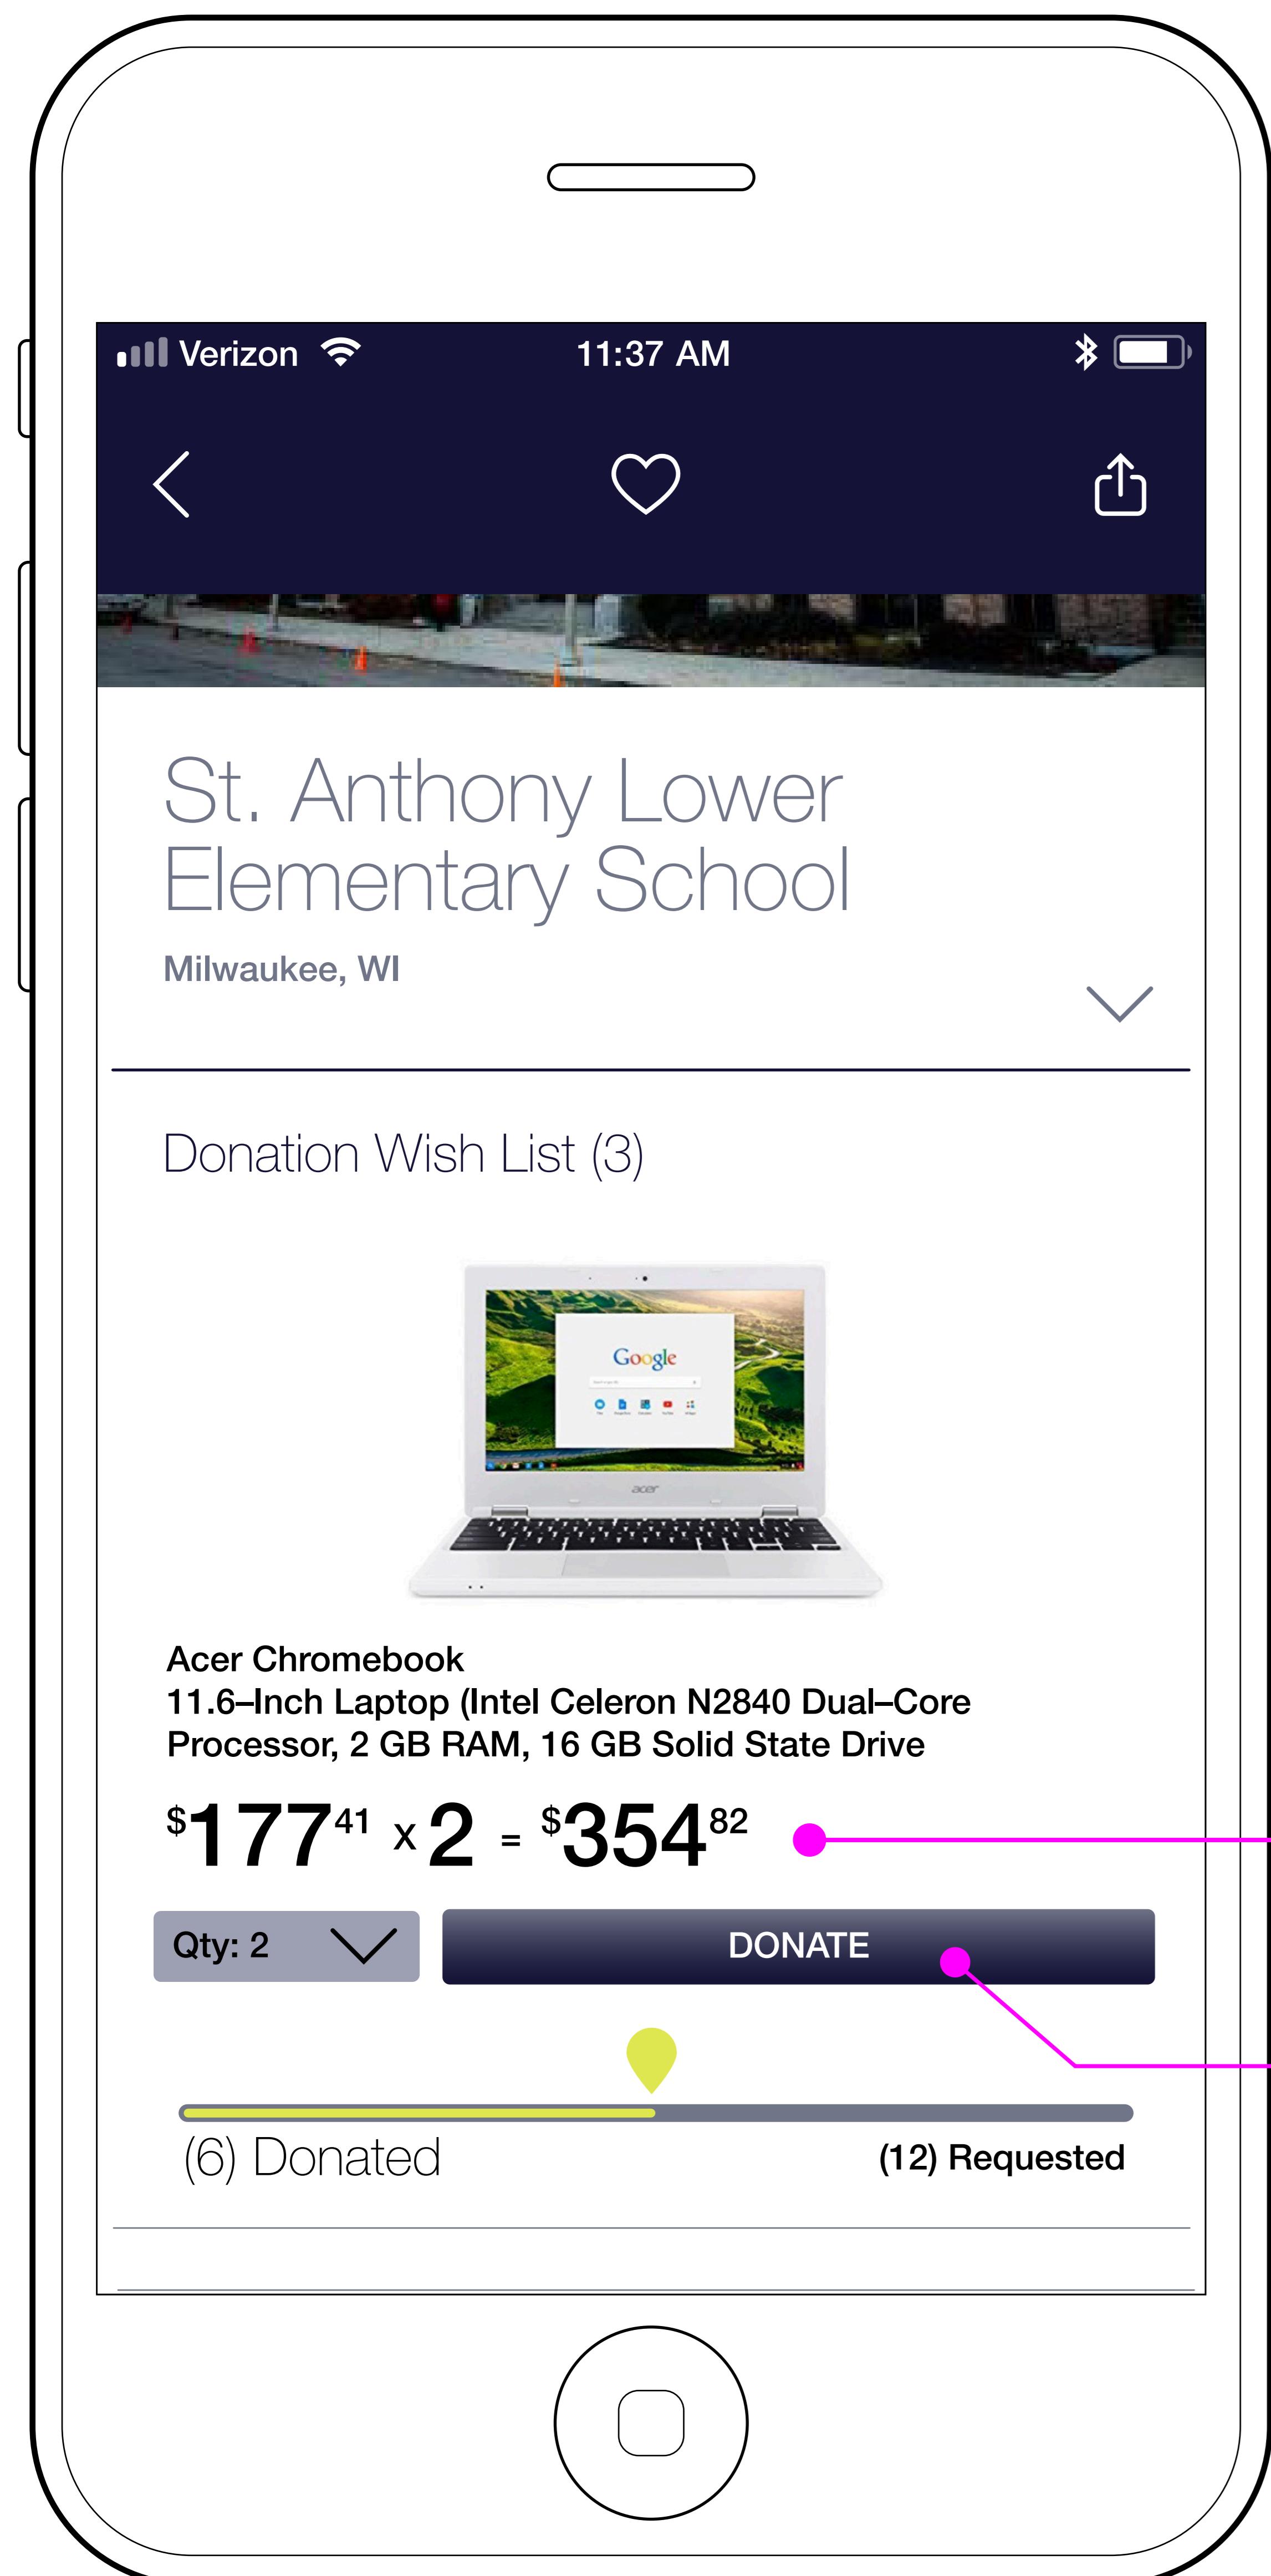

When Fulfilled section fades & badge is layered on top

Donation Wish list continues down page (one page, infinite length)

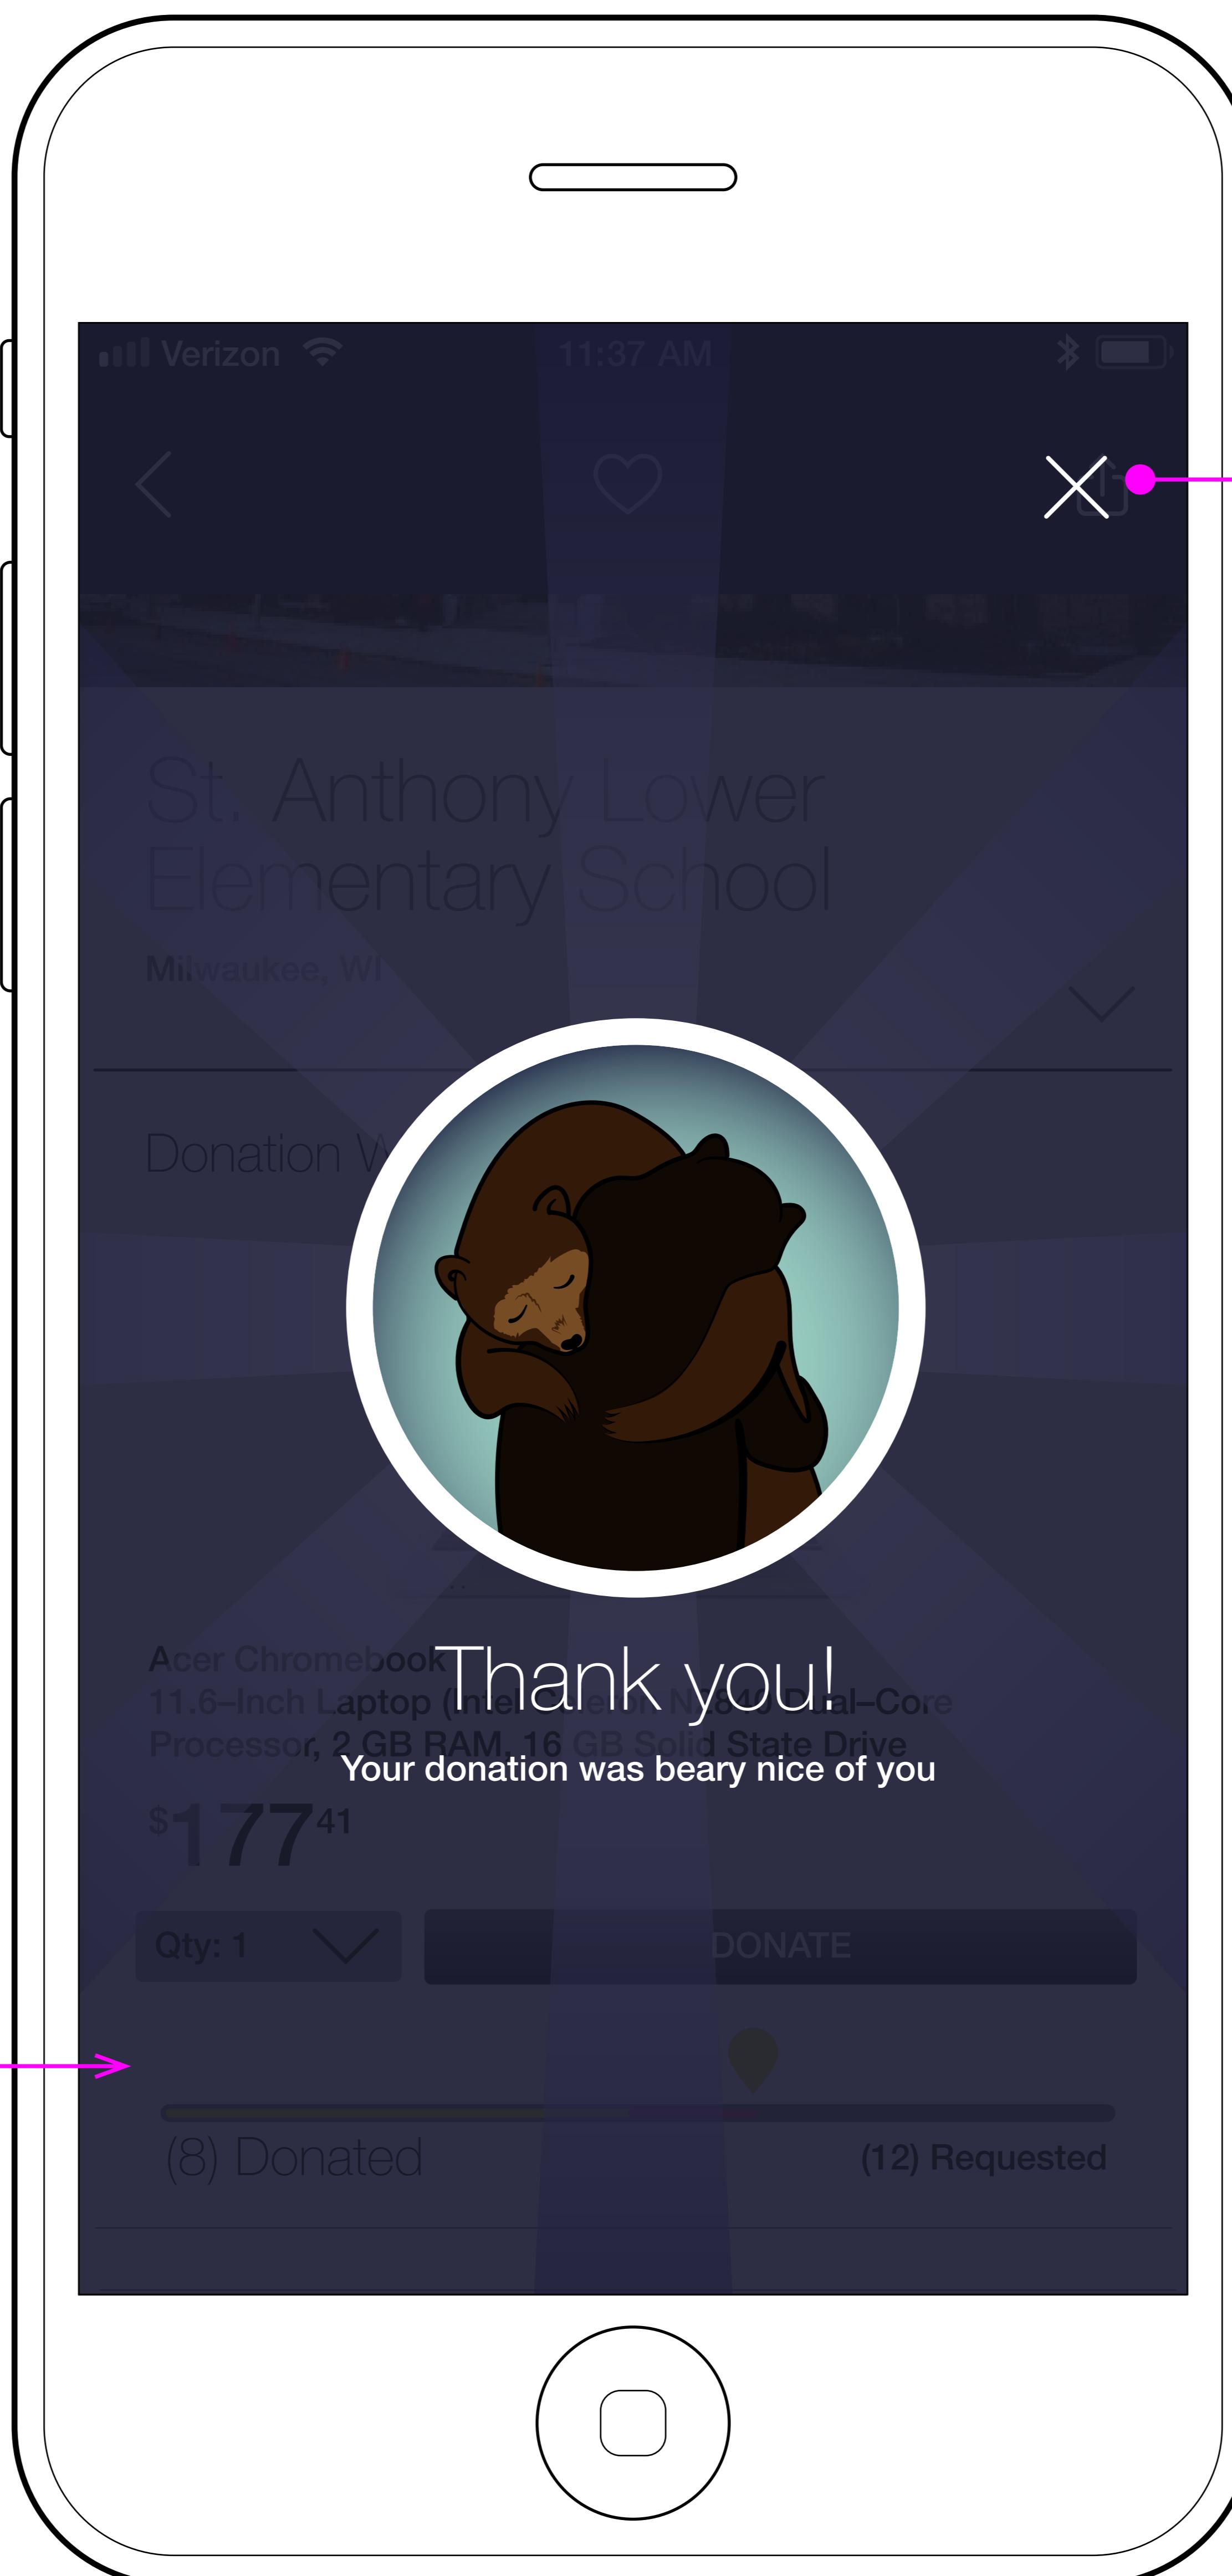

(Priority 2)_MVP_Additional Information

(Priority 3)_MVP_Math + Payoff

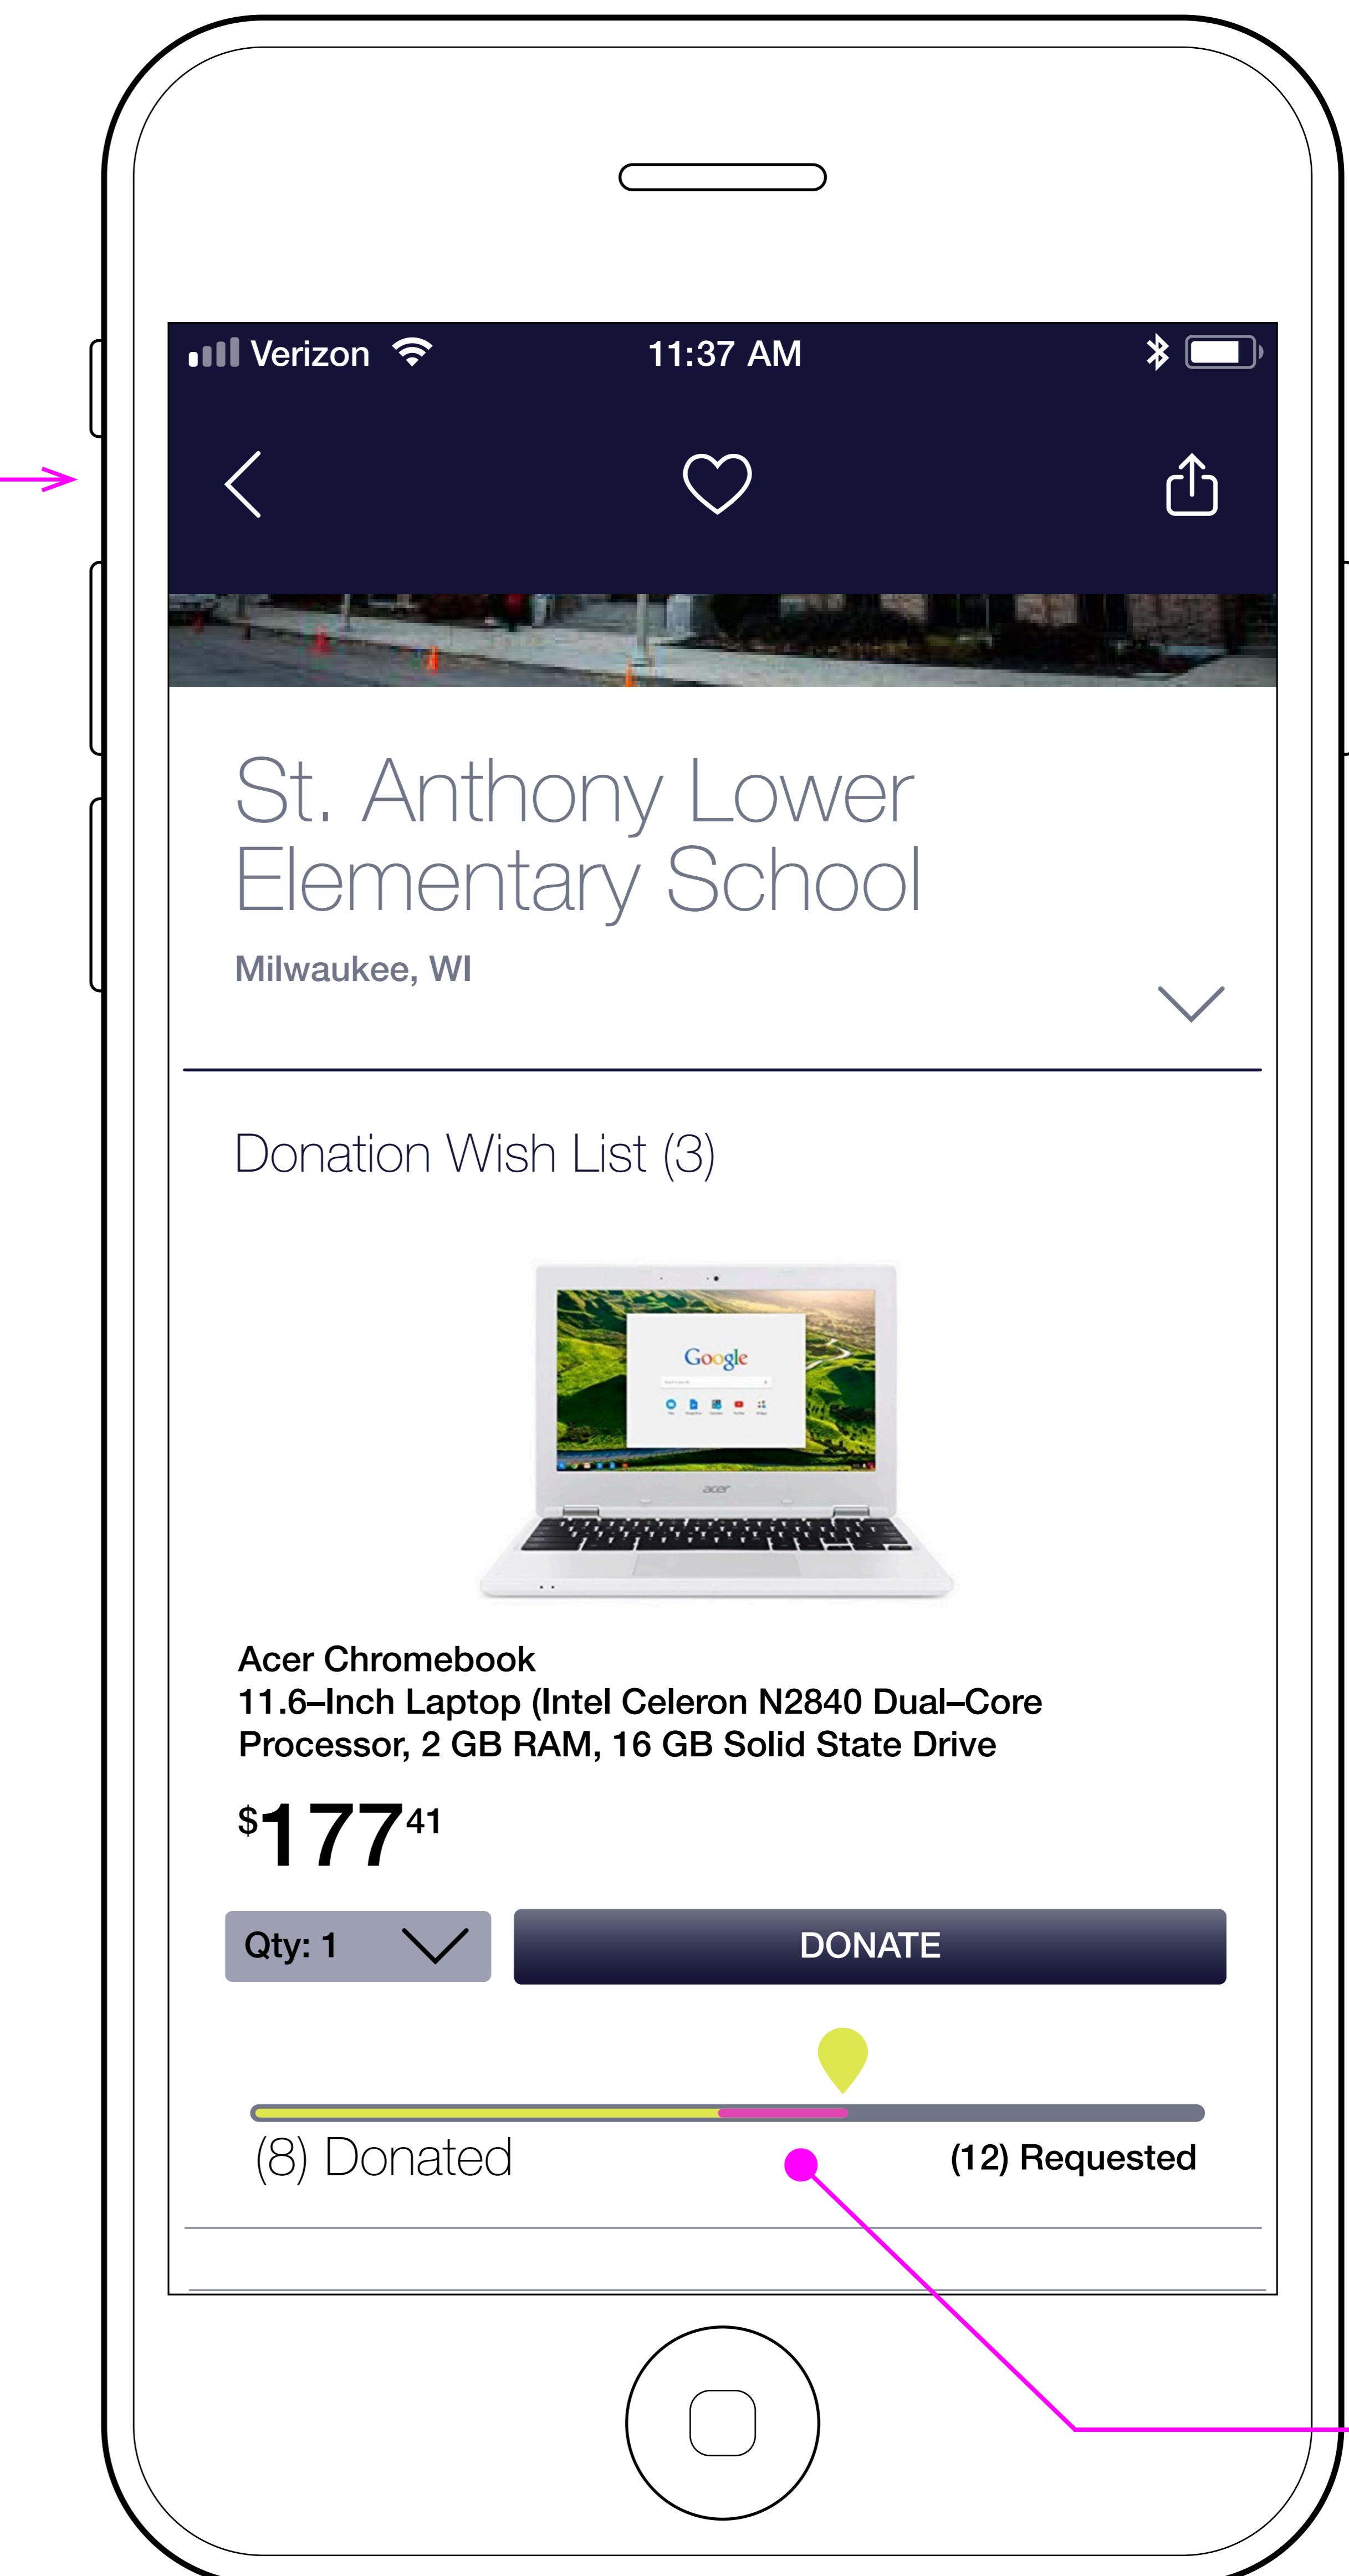

If user selects a quantity greater than 1, price adjusts to show total
1-Click purchase
Do we need pop-up to confirm?

Thank you screen pops-up as payoff
Message will coordinate with Badge Graphic [will create several variations in future]

Returns to previous screen

User may continue to shop

Donations made by the user will be shown in unique color.
